

## **Clustra Systems has been acquired by Sun Microsystems**

Clustra Systems, Inc., a leading developer of high-availability clustering technology that enables continuous real-time computing to support carrier-grade applications and platforms, was recently acquired by Sun Microsystems, Inc. <<http://www.sun.com/>>

Sun specializes in delivering software, systems and services that dramatically reduce downtime and provide real-time responsiveness for the enterprise. Clustra's highly specialized features will play a key role within the Sun™ ONE <<http://www.sun.com/sunone/>> architecture and platform and other Sun product offerings, extending the reliability and availability of Sun's software and clustering products.
