

FOR IMMEDIATE RELEASE

## **SenseStream completes acquisition of INNAWORKS**

22 November, 2001, Hong Kong – SenseStream Limited today announced the completion of its acquisition of INNAWORKS Limited, the Asia's leading developer of wireless services deployment platforms.

With the acquisition, SenseStream has taken over all the Intellectual Properties rights and assets of INNAWORKS.

SenseStream Limited is a software product company providing Wireless Internet infrastructure solutions. It builds and distributes best-of-breed software solutions to help corporations and individuals connect seamlessly to the local wireless networks and the wireless network operators (carriers) to offer wireless data services to the business enterprise market segment.

More information about SenseStream is available on its web site at [www.sensestream.com](http://www.sensestream.com)
